Provided that the conditions laid down in this rule may be relaxed by the Board with the previous approval of the Director of Public Instruction.

19. The Board shall be competent to sanction a recurring grant to a school for a period of one year only, but the Board may renew the grant yearly up to a total period of five years, provided that—

- (a) the managing authority of the school certify at the end of each year that the grant given to the school during the preceding year has been fully and properly expended;
- (b) the Board may increase or decrease the grant (subject to the provision of rule 14) if altered circumstances of the school justify such a course.

20. The Board shall not renew a recurring grant to a school beyond the period of five years unless the school applies for the renewal, and such application shall be dealt with as if it were an original application.

21. The Board shall refuse to make a further grant to a school, the recognition of which is withdrawn by the Board, from the date from which recognition is so withdrawn.

(ii) It shall be open to an inspecting officer of the Department of Public Instruction to submit to the Board at any time a report on a school in receipt of a recurring grant, and the Board shall deal with such a report as though the report had been called for by the Board.

Damodar Canal Project.

(a) Description of the work.

General.—The Damodar Canal Project was designed and constructed to irrigate an area of 180,000 acres on the left bank of the Damodar river in the district of Burdwan. A measure of control of the water levels has been obtained by the construction of a weir with undersluices and a head regulator at Rondia

some 30 miles west of the town of Burdwan. The water so controlled flows through a canal system and is passed on to the land through permanent outlets to irrigate the crops by flowing from field to field.

The total length of canals on the system is 232 miles 1,160 feet.

Headworks.—The headworks are situated at Rondia and consist of a weir wall with three river sluices (usually called undersluices) and a head regulator with the usual abutments, guide banks and flood bunds.

The weir is 3,750 feet long and is designed to raise the ordinary low water levels by $9\frac{1}{2}$ feet. The three undersluices are each 60 feet wide and are situated on the left bank of the river in continuation of the weir wall and their purpose is to ensure that the main thread of the current shall pass close to the canal offtake.

Control is obtained by Stoney's sluice-gates 60 feet wide and $8\frac{1}{2}$ feet high. The gates are counterbalanced and operated by hand winches.

The head regulator is a sluice with five vents $20' \times 4\frac{1}{2}'$ each in size and are designed to pass 2,000 cusecs of the river water into the canal system.

The controlling gates are of a type known as the "rising cill" which means that when the sluice is fully open, the gates have to be dropped behind a breast wall. This ensures that the supply of water passing into the canal will be free from sand, the sand passes along the floor of the undersluices and is retained in the river bed.

The canal system.—The canal system consists of—

- (a) A main canal with distributaries.
- (b) A branch canal with distributaries.
- (c) A large distributary (No. 6) with minors.

(a) *The main canal* is 26 miles 774 feet in length, for its first 13 miles it flows in a north-easterly direction and at that point it crosses the Grand Trunk Road (in its 89th mile). This canal then flows in an easterly direction parallel to and to the north of the Grand Trunk Road for a further 12 miles, where it turns to the south to cross the Grand Trunk Road in the 75th mile to flow into the Eden Canal in Issofabad mauza. There are three important cross drainage works, viz., the Kookooee syphon (5th mile), the Banka syphon (8th mile) and the Kandar syphon (13th mile). These are designed to pass the waters of the Kookooee, Banka and Kandar rivers under the canal.

(a) the provisions of Parts III and XII of, and of the Fifth and Sixth Schedules to, the new Act shall (so far as those provisions are not already in force) come into force on the date of the making of this Order ; and

(b) any Orders in Council or rules made under the new Act with respect to those Legislatures, whether before or after the making of this Order, shall come, or, as the case may be, be deemed to have come, into operation at the date of the making of the Orders or rules in question, and shall authorise or, as the case may be, be deemed to have authorised the giving of any notice or direction and the taking of any other step, given or taken in anticipation of the making or coming into force of the Orders or rules in question.

(2) References in sub-section (2) of section sixty-eight of the new Act to the Federal Legislature shall during the period before the commencement of Part III of that Act (as well as during the period in which Part XIII of that Act is in force) be construed as references to the Indian Legislature.

(3) For the avoidance of doubt it is hereby declared that a person who has been chosen to be a member of the Legislative Assembly of Bengal or of the Legislative Assembly of Bihar may, before the commencement of Part III of the new Act, take part in an election to choose members of the Legislative Council of the Province notwithstanding that he has not taken his seat or taken the oath prescribed by section sixty-seven of the new Act.

5.—(1) The Governor of each Province may in his discretion from time to time authorise such expenditure from the revenues of the Province as he deems necessary to enable the business of the Provincial Government to be carried on between the commencement of Part III of the new Act and the date on which a schedule of authorised expenditure is authenticated in accordance with the provisions of section eighty of the new Act, or until the expiration of six months from the commencement of Part III of the new Act, whichever first occurs :

Provided that, except with the consent of the Governor-General in his discretion, the expenditure so authorised shall not exceed one-half of the total expenditure from the revenues of the Province in the previous financial year as shown in the revised estimates for that year.

(2) The expenditure authorised under the preceding sub-paragraph shall be included under the appropriate heads in the first estimates of expenditure laid before the Provincial Legislature under section seventy-eight of the new Act, and the provisions of that section and of sections seventy-nine and eighty of that Act shall apply in relation thereto :

Provided that any expenditure so authorised shall, so far as regards moneys paid and liabilities incurred before the date on which a schedule of authorised expenditure is authenticated in accordance with the provisions of the said section eighty, be deemed for all purposes of the new Act to have been duly authorised notwithstanding that it may not be included in the Schedule so authenticated.

(3) The following provisions of this sub-paragraph shall apply in relation to any expenditure incurred from the revenues of a Province in respect of a period before the commencement of Part III of the new Act in excess of the expenditure authorised in respect of that period under the relevant provisions of the old Act—

- (a) the Governor of the Province may, in his discretion, at any time before the expiration of six months from the commencement of Part III of the new Act declare any such expenditure to have been duly authorised ; and
- (b) in so far as no such declaration has been made, the provisions of section eighty-one of the new Act (which relates to supplementary statements of expenditure) shall apply in relation to any such expenditure as they apply in relation to expenditure in respect of financial years after the commencement of the said Part III.

6. The Governor of each Province in his discretion may by public notification continue for a period not exceeding twelve months from the commencement of Part III of the new Act any taxation which was being levied for the purposes of the Province and would otherwise expire, without prejudice, however, to the powers of the Provincial Legislature as to the imposition and remission of taxation.

7. Before the first general elections are held to choose the members of the Legislative Assembly of any Province, the Governor shall prorogue the existing Legislative Council, if any, of that Province until the first day of April nineteen hundred and thirty-seven, and on the commencement of Part III of the new Act the Council shall automatically be dissolved.

The reference in this paragraph to elections held to choose members of a Legislative Assembly does not include a reference to primary elections held to choose candidates for seats in that Assembly.

8. On the commencement of Part III of the new Act, the members of the Council of State and the Legislative Assembly of the Indian Legislature who have been elected or nominated to represent Burma or Burma constituencies shall vacate their seats.

9.—(1) Acts of the Indian Legislature made before the commencement of Part III of the new Act (including Acts made under section sixty-seven B of the old Act) may, notwithstanding the repeal of the old Act and notwithstanding anything in section two hundred and ninety-two of the new Act, be validly made so as first to come into force at, or at any time after, the commencement of Part III of the new Act, but any Act which is valid only by virtue of this paragraph shall, except as respects things done or omitted to be done before its expiration cease to have effect on the expiration of twelve months from the commencement of Part III of the new Act :

Provided that—

- (a) any such Act may be continued, repealed or amended by any Legislature or authority having for the time being power to legislate in relation to the subject-matter of the Act :
- (b) any such Act shall have effect as part of the law of British India, but not as part of the law of Burma ;
- (c) if and in so far as any such Act is inconsistent with the new Act, or any Order in Council made thereunder (whether made before or after the Act of the Indian Legislature) the new Act, or the Order in Council, as the case may be, shall prevail.

(2) This paragraph shall apply in relation to regulations and ordinances made under sections seventy-one and seventy-two of the old Act as it applies in relation to Acts of the Indian Legislature.

10. Where any functions of a Local Government under any existing Indian law are transferred by or under the new Act to the Federal Government, the Provincial Government shall, nevertheless, continue, to perform those functions for such period, if any, not exceeding one year from the commencement of Part III of the new Act, as the Governor-General may fix, and shall, in the exercise thereof, be subject to the like control by the Governor-General in Council as immediately before the commencement of the said Part III.

11. Section sixteen of the new Act (which authorises the appointment of an Advocate-General for the Federation) and so much of sub-section (3) of section thirty-three thereof as declares his salary and allowances to be charged on the revenues of the Federation shall come into force on the commencement of Part III of the new Act.

12. So much of section three hundred and twenty-one of, and of the Tenth Schedule to, the new Act as repeals sub-section (2) of section sixty-seven of the old Act down to the words " the revenues of India " shall not take effect until the establishment of the Federation.

13.—(1) The provisions of this paragraph shall have effect with respect to the period before the commencement of Part III of the new Act.

(2) The accounts for the said period which, but for the commencement of the said Part III would have been audited in India, shall be audited under Part VII of the new Act as if they were accounts of the Governor-General in Council, but the Auditor-General of India shall transmit to the Secretary of State such information as is necessary to enable him properly to perform the duties mentioned in the subsequent provisions of this paragraph.

(3) The accounts for the said period which, but for the commencement of Part III of the new Act, would have been audited in England by the auditor of the accounts of the Secretary of State in Council shall be audited by the Auditor of Indian Home Accounts, who shall have the like powers and perform the same duties in relation thereto as the auditor of the account of the Secretary of State in Council would have had if the new Act had not been passed, except that anything to be done by or to the Secretary of State in Council shall be done by or to the Secretary of State ; and sub-section (3) of section twenty-seven of the old Act and paragraph nine of the Order in Council of nineteen hundred and twenty relating to the duties of the High Commissioner shall apply accordingly.

Sub-sections (4) and (5) of section one hundred and seventy of the new Act shall not apply in relation to the functions of the Auditor of Indian Home Accounts under this paragraph.

(4) The Secretary of State shall, notwithstanding the repeal of sub-sections (1) and (2) of section twenty-six of the old Act, lay before both Houses of Parliament of the same accounts and estimates as the Secretary of State in Council would under those sub-sections have been required so to lay.

14.—(1) Anything which under the provisions of the new Act or of any Order or rules made thereunder, is required or authorised to be done by, to or before the Governor of a Province (whether or not the Governor is to act in his discretion or to exercise his individual judgment) shall, before the commencement of Part III of the new Act, be done by, to or before the Governor in Council or, in the case of Sind or Orissa, the Governor.

(2) The provisions of section two hundred and sixty-one of the new Act, which require the Secretary of State not to exercise certain powers except with the concurrence of his advisers, shall, in relation to any prospective exercise of those powers before the commencement of Part III of the new Act, be deemed to be satisfied if he exercises those powers with the concurrence of the majority of votes at a meeting of the Council of India.

* 15.—(1) For a period of twelve months from the date of the commencement of Part III of the new Act a person who immediately before the said date was holding an office under the Crown in India shall not be disqualified from continuing to hold that office by reason of the fact that he is not a British subject and that no declaration entitling him to hold the office has been made under section two hundred and sixty-two of the new Act.

(2) Until other provision is made under the new Act, the conditions of service applicable to any person or any class of persons appointed or to be appointed to serve His Majesty in a civil capacity in India shall be the same as were applicable to that person or, as the case may be, to persons of that class immediately before the commencement of Part III of the new Act.

16. The provisions of this Order shall be in addition to, and not in derogation of, the provisions of section thirty-seven of the Interpretation Act, 1889.

1. In this Part of this Order and in the First Schedule to this Order, except where it is otherwise expressly provided or the context otherwise requires—

“ agent ” includes an election agent and any person who, on the trial of an election petition, is held by the Commissioners to have acted as an agent in connection with the election with the knowledge or consent of the candidate ;

“ candidate ” means a person who has been or claims to have been duly nominated as a candidate at any election, and a candidate who, with the election in prospect, has held himself out as a prospective candidate, shall be deemed to have been a candidate as from the time when he began so to hold himself out ;

“ electoral right ” means the right of a person to stand or not to stand as, or to withdraw from being, a candidate, or to vote or refrain from voting at an election ;

“ returned candidate ” means a candidate whose name has been published in the prescribed manner as duly elected ;

"corrupt practice", in relation to an election by the members of a Provincial Legislative Assembly to fill seats in the Provincial Legislative Council, means one of the practices specified in Parts I and II of the First Schedule to this Order, and in relation to any other election, means one of the practices specified in Parts I, II and III of that Schedule.

2. No election shall be called in question except by an election petition presented in accordance with the provisions of this Part of this Order.

3.—(1) An election petition against any returned candidate may be presented to the Governor—

- (a) by any candidate or elector on any ground ;
- (b) by an officer empowered in that behalf by the Governor, exercising his individual judgment, on the ground that the election has not been a free election by reason of the large number of cases in which undue influence or bribery has been exercised or committed.

In this paragraph, "elector," in relation to a commerce and industry, mining or planting constituency, includes all the persons included in the electoral roll as the nominees of any body, notwithstanding that only one of them is entitled to vote.

(2) A petitioner may, if he so desires, in addition to calling in question the election of the returned candidate, claim a declaration that he himself has been duly elected, but such a declaration shall only be claimed on one or other of the following grounds :—

- (a) that in fact the petitioner received a majority of the valid votes ; or
- (b) that but for votes obtained for the returned candidate by corrupt practices, the petitioner would have obtained a majority of the valid votes.

4.—(1) Unless the Governor, exercising his individual judgment, dismisses a petition for non-compliance with the prescribed requirements, he shall, exercising his individual judgment, appoint as Commissioners for the trial of the petition three persons who are or have been, or are eligible to be appointed, judges of a High Court, and shall appoint one of them to be the President :

Provided that nothing in this sub-paragraph shall be deemed to prevent the appointment of the President of a Commission before the other Commissioners are appointed.

(2) Subject to the provisions of this paragraph, all applications and proceedings in connection with the petition shall be dealt with by, and carried on by or before, the Commissioners.

(3) Where in respect of an election in a constituency more petitions than one are presented, the Governor shall refer all those petitions to the same Commissioners, who may at their discretion inquire into the petitions either separately or in one or more groups, as they think fit.

(4) If the services of any Commissioner are not available for the purposes of the inquiry or if during the course of the inquiry any Commissioner is unable to continue to attend thereat, the Governor, exercising his individual judgment, shall appoint another Commissioner and the inquiry shall recommence before the Commission as so reconstituted :

Provided that the Commissioners may direct that any evidence already recorded shall remain upon record, and in that case it shall not be necessary to re-examine those witnesses who have already been examined and discharged.

(5) References to the Commissioners in this Part of this Order shall, as respects any matter to be done before the commencement of the inquiry, be deemed to be references to the President.

5. When at an inquiry into an election petition the Commissioners so order, the Advocate-General of the Province, or some person acting under his instructions, shall attend and shall take such part therein as the Commissioners may direct.

6. Subject to the provisions of this Part of this Order, Acts of the Provincial Legislature and Rules may regulate the form of election petitions, the time and manner in which they are to be presented, the persons who are to be made parties thereto, the procedure to be adopted in connection therewith and the circumstances in which petitions are to abate, or may

be withdrawn, and in which new petitioners may be substituted, may require security to be given for costs and may authorise the Governor, exercising his individual judgment, to dismiss petitions for non-compliance with the prescribed requirements.

7.—(1) Subject to the provisions of this paragraph, if in the opinion of the Commissioners—

- (a) the election of a returned candidate has been procured or induced, or the result of the election has been materially affected, by any corrupt practice; or
- (b) any corrupt practice specified in Part I of the First Schedule to this Order has been committed in the interest of a returned candidate; or
- (c) the result of the election has been materially affected by the improper acceptance or rejection of any nomination, or by reason of the fact that any person nominated was not qualified or was disqualified for election, or by the improper reception or refusal of a vote, or by the reception of any vote which is void, or by any non-compliance with the provisions of the Act or of this Order, or of any Act of the Provincial Legislature or Rules relating to the election, or by any mistake in the use of any prescribed form; or
- (d) the election has not been a free election by reason of the large number of cases in which bribery or undue influence has been exercised or committed,

the election of the returned candidate shall be void.

(2) If the Commissioners report that a returned candidate has been guilty by an agent, other than his election agent, of any corrupt practice specified in Part I of the First Schedule to this Order, but further report that the candidate has satisfied them that—

- (a) no corrupt practice was committed at the election by the candidate or his election agent, and the corrupt practices mentioned in the report were committed contrary to the orders, and without the sanction or connivance, of the candidate or his election agent;
- (b) the candidate and his election agent took all reasonable means for preventing the commission of corrupt practices at the election;
- (c) the corrupt practices mentioned in the report were of a trivial and limited character or took the form of customary hospitality which did not affect the result of the election; and
- (d) in all other respects the election was free from any corrupt practice on the part of the candidate or any of his agents,

then the Commissioners may find that the election of the candidate is not void.

(3) If a person (not being entitled so to do) votes more than once at the same election, all his votes shall be deemed for the purposes of this paragraph to be void.

8.—(1) At the conclusion of the inquiry the Commissioners shall report whether the returned candidate, or any person who has lodged a petition and claimed a seat, has been duly elected and in so reporting shall have regard to the provisions of the last preceding paragraph.

(2) The report shall further include a recommendation by the Commissioners as to the total amount of costs which are payable and the persons by and to whom the cost should be paid, and any such recommendation may include a recommendation for the payment of costs to the Advocate-General of the Province or a person acting under his instructions attending the trial in pursuance of an order of the Commissioners.

(3) The report shall be signed by all the Commissioners and the Commissioners shall forthwith forward their report to the Governor, who on receipt thereof shall issue orders in accordance with the report and publish the report in the Government Gazette of the Province, and the orders of the Governor shall be final.

9. If either in their report or upon any other matter there is a difference of opinion among the Commissioners, the opinion of the majority shall prevail and their report shall be expressed in terms of the views of the majority.

18. Where any charge is made in an election petition of any corrupt practice, the Commissioners shall record in their report—

- (a) a finding whether a corrupt practice has or has not been proved to have been committed by any candidate or his agent, or with the connivance of any candidate or his agent, and the nature of that corrupt practice; and
- (b) the names of all persons, if any, who have been proved at the inquiry to have been guilty of any corrupt practice and the nature of that practice with any such recommendations as the Commissioners may think proper to make for the exemption of any persons from any disqualifications which they may have incurred in this connection under paragraphs two to five of Part IV of this Order:

Provided that no person shall be so named in the report unless he has been given a reasonable opportunity of showing cause why his name should not be so recorded.

PART IV.

DISQUALIFICATIONS.

1. The offences and practices specified, in relation to certain elections, in the Second Schedule to this Order shall, for the periods respectively specified in relation to those offences and practices in that Schedule, entail disqualification for membership of any Provincial Legislature.

2. If any person—

- (a) is, in connection with an election to a Provincial Legislature, the Coorg Legislative Council or a local body in British India, convicted of an offence under Chapter IXA of the Indian Penal Code punishable with imprisonment for a term exceeding six months; or
- (b) is after an inquiry under Part III of this Order reported as guilty of any such corrupt practice as is specified in Part I or Part II of the First Schedule to this Order,

he shall, for a period of six years from the date of the conviction or report, be disqualified for voting at any election.

3. If, in relation to any election (other than an election by the members of a Provincial Legislative Assembly to fill seats in the Provincial Legislative Council), any person is after such an inquiry as aforesaid reported as guilty of any such corrupt practice as is specified in Part III of the said Schedule he shall be disqualified for voting at any election for a period of four years from the date of the report.

2. A candidate taking up Hygiene as an additional subject will be required to submit to the Divisional Inspector of Schools along with his application a certificate of training from a Registered Medical Practitioner or from a recognised teacher of Hygiene.

3. In very special cases applications may be addressed by such candidates direct to the University, but these must be submitted to the undersigned along with necessary particulars, as specified below, *not later than the 10th November* of the year preceding that in which they desire admission to the examination and must be accompanied by a statement as to why the Divisional Inspector of Schools concerned was not addressed on the subject.

4. Girl candidates are not required to appear at any Test Examination or to obtain previous permission of the University to appear at the Matriculation Examination as private candidates.

5. If such a student desires to offer Hygiene as one of her subjects for the Matriculation Examination she must submit to the Controller of Examinations along with her application form for admission to the examination, a certificate of training in the subject from a Registered Medical Practitioner or from a recognised teacher of Hygiene.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. Smoke abatement as others see it.

Immense Mischief.

The more outrageous manifestations of the smoke evil, common in our larger towns 30 or 40 years ago, have been much abated. But the advance made ought not to blind us to the immense mischief still done in subtler and more cautious forms by the smoke nuisance. The Smoke Abatement Society, which meets once again at Bristol to-day, is doing very useful work and deserves the encouragement and support of the suffering public—(*News Chronicle*).

Suicidal.

It is all very well to 'keep the home fires burning'—in song it sounds nice and comforting—but if it impairs the health of the people, as it unquestionably does, it is suicidal—(*Rotherham Advertiser*).

"What clean cows."

It is a truism of travel that, however sunlit the day, the approach to any great city takes over its brightness a dark and smoky film. Thousands of homely firesides and hundreds of factory chimneys pour out their murk into the air, and over the town's expanse there hangs a pall. There is no need now for industry to turn a fair land into a blackened wilderness. Coal can be made a better, less grubby, servant of mankind.

There is a good deal of truth, as well as of pathos, in the story of the town child who on his first visit to the country went about crying delightedly: "What clean hills," "What a clean river," "What clean cows"—(*Evening News, London*).

The Inevitability of Gradualness.

Few reforms better exemplify the inevitability of gradualness than that of smoke abatement. Great credit is due to the National Smoke Abatement Society for its efforts to make known the evils of pollution and to develop a strong public opinion on the point. Thanks to those endeavours the menace, not only of industrial, but of domestic smoke is far better understood to-day than it used to be.

Factories may belch their vapours into the blue, but it is the spangles of smoke from innumerable private chimney pots that are mainly responsible for poisoning the urban air. When these are eliminated, and not before, will our cities be fit for an AI population to breathe in—(*Western Daily Press*).

The Supernal Sewer.

If we vaunt ourselves over our ancestors on the score of "enlightenment," it must be in a sense that is abstract, if not Pickwickian. We (of the cities) see through a smoke darkly and breathe an air that they would have abhorred as heartily as their chivalry condemned "villainous saltpetre."

The mischievous effects of smoke have been for a generation familiar to every schoolboy, and every schoolboy as he grew to manhood has had to suffer them with little mitigation. The subject does not appear to reach the cognisance of those who rule us; it would need a diligent search of "Hansard" to find anything about it. Yet it is a "national" question, if ever there was one; it has to be tackled on the broadest lines, if any headway is to be made at all. It makes one wonder how many of the hundreds of thousands of new houses that we are exhorting and organizing into existence will be fresh tributaries of that supernal sewer from which our nostrils have to extract the breath of life"—(*The Observer*).

Volunteers required.

Let us again salute our untiring friends of the National Smoke Abatement Society.

To-day, in saluting Smoke Abatement, we proffer a small suggestion. Persuasion and statistics and talk about atmospheric pollution, sulphuric acid, flue dust and gas, malignant congestion and tar deposits having quite obviously proved useless, why not a band of devoted Smoke

Abaters with blackened faces instead of black shirts—these to walk or stand about at selected points puffing smoke through portable funnels in a startling protest against smoke?

Advertisement pays. Argument rarely convinces. Smoke abatement awaits its heroes and martyrs—(*Daily Mirror*).

Disgusting Evil.

It was an old story, but one that needs reiteration, which was told at the Bristol Conference of the Smoke Abatement Society. The case against our present methods of burning raw coal had already been proved by irrefutable evidence; but the speeches at the conference did succeed in making one or two new points and in keeping the whole disgusting evil before the public eye—(*Manchester Guardian Weekly*).

Sanguine and Determined.

Since the burning of coal in London was prohibited exactly 662 years ago, and since from that day to this no one has paid the edict the smallest notice, the Smoke Abatement Society must be commended as a sanguine and determined body. Instead of denouncing the nuisance in bad language like John Evelyn, who pamphleteered against the "dismal and Hellish cloud of Sea-coal," the Society goes more cunningly to work by telling us of the shocking amount of money which is yearly wasted in smoke—(*The Morning Post*).

Plans for Chimneys, etc.

Under the Act new plants installed or alterations made to the old must be approved by the Commission. During the year the Commission examined and improved 81 plans of which 63 were made in the office of the Commission, covering nearly all types of industrial furnaces. Permission to construct was granted in each case.

Domestic smoke.

The most deadly of the smoke nuisances is the low-lying smoke discharging at ground level from over a quarter of a million domestic fireplaces which for several hours, particularly during the cold weather evenings, shrouds some suburban areas in an irritating and suffocating pall through which it is impossible to see even a few yards ahead. There being no chimneys, domestic smoke is discharged at ground level, when the aerial scavengers wind and rain fail, the poisonous smoke floats stationary near the ground in the vicinity of the spot where it is made. Where the domestic smoke is worst, the mortality from respiratory diseases is highest. The Act does not control domestic smoke. However, the Commission have undertaken to deal with this smoke as far as practicable by means of distributing leaflets containing illustrative instructions to the public and by co-operation rendered by the Ward Health Associations in the city. The alternative remedy is electricity, gas and smokeless fuel.

Complaints.

The Commission controls approximately an area of 80 square miles comprising the local limits of the Calcutta Corporation, Tollygunge Municipality, South Suburban Municipality, Garden Reach Municipality and Howrah Municipality. With the present inadequate staff

it is difficult to keep in touch with all cases of smoke nuisance. The public continue to show much confidence in the Commission and assist in the work by drawing attention to cases of smoke nuisances that Inspectors may not have observed. Eighty-six complaints were made against seventy-six in the last year. Whenever complaints are received immediate enquiries are made and relief given whenever possible. Many of the complaints were made against domestic smoke in respect of which no action can be taken under the Act; but every effort is made by instruction and advice to ameliorate conditions complained of.

Thirty-one statutory warnings were served upon the owners of factories for offensive smoke emission. With each intimations were also sent that, if effective remedial action to reduce emission were not taken, legal proceedings would be instituted.

Prosecutions.

Every care continues to be taken by the Commission before sanctioning a prosecution to see that it is necessary with most successful results.

The following prosecutions were instituted during the year under review:-

(1) Babu S. Bhattacharjee, Manager of Babu Basanta Kumar Roy's Rice Mill at Hon'ble Surendra Nath Roy Road, Shahpore, Calcutta, for emitting smoke in contravention of rule 23(3) under section 10 of the Bengal Smoke Nuisances Act III of 1905—Convicted for the first time and fined Rs. 25 (50 per cent. of the maximum prescribed).

(3) Babu Lall Behari Basack, Manager of Messrs. S. N. (7) Babu Panna Lal Das, owner of the Sree Govinda Rice Mill at 6, Burrashibolla Road, Shahpore, Calcutta, for emitting smoke in contravention of rule 23(3) under section 10 of the Bengal Smoke Nuisances Act III of 1905—Convicted for the first time and fined Rs. 25 (50 per cent. of the maximum prescribed).

(8) Babu L. M. Sarma, Manager of the Rameswar Tobacco Company, at 91-96, Grand Trunk Road, Howrah, for lower altitude in contravention of rule 23(3) under section 10 of the Bengal Smoke Nuisances Act III of 1905, and also for wrongful construction and use in contravention of section 8A(2) of the said Act—Convicted under section 8A for the first time and fined Rs. 100 (100 per cent. of the maximum prescribed).

(9) Mr. S. C. Ghose, Superintendent of the Tallah Pumping Station of the Calcutta Municipal Corporation, for emitting smoke in contravention of rule 23(3) under section 10 of the Bengal Smoke Nuisances Act III of 1905—Convicted for the fifth time and fined Rs. 150 (75 per cent. of the maximum prescribed).

(10) Babu Hari Pada Roy, Manager of Messrs. P. C. Sen & Bros.'s Rice Mill at 39, Alipore Road, Calcutta, for emitting smoke in contravention of rule 23(3) under section 10 of the Bengal Smoke Nuisances Act III of 1905—Convicted for the first time and fined Rs. 10 (20 per cent. of the maximum prescribed).

(11) Babu Radha Kissen Bhorilall, owner of the Rice Mill at 1/2, Chetla Road, Tollygunge, for emitting smoke in contravention of rule 23(3) under section 10 of the Bengal Smoke Nuisances Act III of 1905—Convicted for the first time and fined Rs. 10 (20 per cent. of the maximum prescribed).

(12) Babu Surendra Nath Shah, Manager of Messrs. Ramdeo Benarasi Lal's Rice Mill, at 2, Govindo Addy Road, Calcutta, for emitting smoke in contravention of rule 23(3) under section 10 of the Bengal Smoke Nuisances Act III of 1905—Convicted for the first time and fined Rs. 10 (50 per cent. of the maximum prescribed).

In the last three cases, the fines inflicted are less than the inspection fees which would have been payable. The infliction of such inadequate sentences not only makes a breach of the Act profitable, but also tends to encourage certain owners, to commit such a breach.

Publicity.

The Commission was again represented at the Calcutta Health Welfare Week. Exhibits showed the evil effects of smoke nuisance and air pollution on the local respiratory mortality, the poisoning of food supplies and the effects on trees, buildings and distant localities. The Calcutta Electric Supply Corporation and the Oriental Gas Company greatly assisted this section in displaying smokeless gas and electrical appliances for cooking and other domestic purposes, as a permanent solution of the evils of smoke. The public showed great interest in this section.

Permanent remedies.*Electricity, gas, gas coke, oil and smokeless fuels (low temperature carbonisation).*

In factories (apart from the 100 rice mills using the waste product, husk) much raw coal is used. The annual reduction shown in Appendix I indicates that it is possible to reduce smoke emission to a negligible amount, and in many cases it will prove economical to use a smokeless medium in place of raw coal.

The smoke abatement campaign has been materially assisted by the activities of the Calcutta Electric Supply Corporation who have during the past year further increased the number of their consumers, particularly amongst industrial works.

The number of domestic consumers of electricity has increased by 5,427 whilst an additional 499 heating and cooking circuits have been connected to the company's mains.

The total power of new electric motors connected during the past year in industrial works amounts to no less than 20,000 horse-power, and the greater proportion of this vast increase is represented by the conversion of existing steam engines to electric drives with a resultant closing down of boilers in existence for many years. This results in a corresponding diminution of free smoke emitted in the Calcutta area.

The Oriental Gas Company state that during the year ending 30th June 1935 there was distinct evidence of a turn towards the use of gas for industrial purposes in various ways.

At the same time, many new residential buildings were fitted with complete installations for cooking and water heating purposes, whilst for the latter purpose the gas geyser demand had continued to be a marked feature of house and flat seekers. Property owners when renovating their premises frequently install modern gas appliances.

During the year the number of appliances showed an increase of 700 for cooking, water-heating, steam raising and for a large variety of industrial purposes.

General control by the Commission.

During the year under review the Commission held 11 meetings out of which one was special. The Commission also kept in touch with various smoke departments, fuel, engineering and research institutes of Europe and America.

The average emission of smoke from each factory chimney was the equivalent of .07 minutes of dense black smoke per hour. In 1906 when the work of the Commission commenced it stood at 13.1 minutes per hour.

Detecting offensive chimneys.

Smoke observations of big factories were generally made by the Inspectors from the Central Smoke Observatory which is fitted with a telephone so that owners may be informed on the telephone at the actual time of smoke emission. Observations of locomotives, steamers, launches and minor industries are made locally.

In 1926 the Commission recommended to Government that Smoke Observers should be appointed to relieve the Inspectors for the duty of inspection, etc., of engineering plants. Administrative approval was obtained in 1927 to this recommendation, but financial stringency has prevented this scheme being carried into effect.

During the year action was taken as under:—

Nuisances reported for:—

Departmental action—1484 offences.

Telephone warnings—963 offences.

Inspections and tests—4,820.

Statutory warnings—31.

Prosecutions—12.

The maximum fine imposed for offences under the Act was Rs. 150 and the minimum Rs. 10.

It is recognised that the smoke from locomotives, road rollers and steamships is particularly offensive, because of low altitude at which it escapes, but improvement in this is being experienced largely due to assistance of owners, who punish careless attendants departmentally on reports from the Inspectors of offences observed. This procedure has been so successful that no prosecutions were necessary regarding such furnaces, though excessive smoke from 236 locomotives, 1 road roller and 241 steam-launches and steamships had to be reported during the year.

Conclusion.

The Commission records its grateful thanks to smoke departments, fuel and engineering research institutions and the technical and local press for assistance freely rendered. Thanks are also due to local owners, managers and engineers, whose co-operation and valuable assistance have greatly helped the Commission and to the technical staff for their energy and loyalty in carrying out the policy of the Commission.

Chief Inspector and Secretary.

G. S. DUTT,

Secy. to the Govt. of Bengal.

CALCUTTA, THE 11TH AUGUST 1936.

RESOLUTION—No. 6207M.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

The attention of Government has been drawn to the unsatisfactory state of affairs that has been prevailing for sometime past in the administration of the Rajpur Municipality, in the district of the 24-Parganas. It appears that there are two rival parties among the

Municipal Commissioners and the activities of party factions have been so injurious to municipal affairs that even the normal administration of the municipality is not being allowed to be carried on properly. The Chairman appears to be practically an absentee. The party in opposition succeeded in securing a majority, with the result that a majority of the Commissioners refused to pass the budget estimates for 1936-37 embodying the ordinary grants and reduced the grants to Re. 1 under certain essential heads, such as, education, dispensary, etc., with a view to bringing about a deadlock. Attempts to pass the budget after reinserting the ordinary grants proved fruitless. Repeated attempts were made by the Subdivisional Officer and the District Magistrate to bring about an amicable settlement between the parties, but these proved unsuccessful. The Chairman, whose party is in a minority, would not resign so as to remove the deadlock. On the other hand, the opposite party, although in a majority, could not secure the two-thirds majority necessary for his removal. Nor would the parties agree to come to a mutual understanding in the interest of the rate-payers whom it is their duty to serve.

2. The sweepers' service has been suspended by reason, among others, of the necessary grants for the purpose not being passed and conservancy arrangements have consequently broken down. In fact, there has been a complete deadlock in the municipal administration, to the great suffering of the residents of the municipality.

3. The conduct of both the parties appears to Government to have been in utter disregard of their statutory duties and the interest of the rate-payers. It seems clear that while the Chairman is clinging to the chair although reduced to a state of impotence, the opposite party is determined to make the normal administration of the municipality impossible. In the circumstances Government are satisfied that the present body of Municipal Commissioners have persistently made default in the performance of the duties imposed on them by the Bengal Municipal Act, 1932, and have shown their incompetence to perform these duties. In exercise of the powers conferred on them by section 552 of the Bengal Municipal Act, 1932, the Government of Bengal (Ministry of Local Self-Government) accordingly direct that a fresh general election shall be held, and that fresh appointments shall be immediately made of persons to be Commissioners of the Rajpur Municipality in the district of the 24-Parganas.

In addition to the details required on the below under the following heads:—

(a) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the municipality has taken, or has agreed to take, in order to make good the deficiency.

(b) The reserve of taxation or other possible means of increase in the revenues of the municipality. The rates at which each of the taxes mentioned in column 12 on the reverse are levied, other than tax on persons, should be stated here.

reverse, clear information should be given

(a) The ordinary surplus as arrived at on the basis of the last three years' receipts and expenditure is quite sufficient to pay annual instalments towards repayment of the loan. Apart from this the quinquennial revision of assessment which had effect from 1st April 1935 has increased the demand on account of the three rates by about Rs. 4,000 and a professional tax under section 123(I)(f) was imposed only about a couple of years hence and the percentage of conservancy rate was increased from $3\frac{1}{4}$ to 4. The proceeds from these sources are now spent on less important improvements and would be available for payment of loan repayment instalment. There is also saving of about Rs. 1,700 that would be caused on conservancy head by introduction of the Sewerage Scheme. These taken together would be quite enough to meet any deficit in surplus.

(b) The rates at which the taxes mentioned in column 12 on the reverse are levied are as under:—

- (i) Rate on holdings at $7\frac{1}{2}$ per cent. on the annual value of holdings.
- (ii) Water-rate at 7 per cent. on the annual value of holdings to which water connections are given and at 6 per cent. in cases of all other holdings which or any part of which are within a radius of 440 yards from the nearest street tank.
- (iii) Conservancy rate at 4 per cent. on the annual value of holdings.
- (iv) Taxes on carriages and animals at the following rates:—

Description.	Tax per half-year. Rs. A.
(a) On every jin rickshaw ..	2 0
(b) On every 4-wheeled carriage drawn by two horses ..	4 8
(c) On every 4-wheeled carriage drawn by one horse or a pair of ponies ..	3 0
(d) On every 2-wheeled carriage ..	2 8
(e) On every horse ..	3 0
(f) On every pony under thirteen hands and on every mule or donkey ..	0 12
(g) On every elephant ..	6 0
(h) On every camel ..	2 0
(i) On every 4-wheeled carriage drawn by one pony under thirteen hands ..	2 0

(v) Tax on professions and trades (dangerous and offensive trades):—

	Rs.
Bone depot ...	25
Hide depot ...	25
Lime kiln ...	10
Wood depot ...	25
Brick kiln ...	40

(vi) Tax on professions, etc., under section 123(I)(f) of the Act at half the rates specified in Schedule IV of the Bengal Municipal Act, 1932.

There is still room for increasing the percentage of the holding, water and conservancy rates by respectively $2\frac{1}{2}$ per cent., $1\frac{1}{2}$ per cent. and 3 per cent. Moreover, this Board has since all the streets and lanes of the town electrically lighted without imposing lighting rate and they can if necessity is felt impose a lighting rate too.

(c) A statement of all outstanding loans specifying in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved, and the amount still payable.

(d) Any explanations in regard to receipts and expenditure to show the true financial position of the municipality when such position is otherwise than the ordinary surplus would indicate.

(c) Only a sum of Rs. 1,08,397-13 is outstanding to this date against a loan of Rs. 1,20,000 taken from Government (*vide* Government Order No. 3074P.H., dated the 25th November 1930) at an interest of Rs. 6½ per cent. for the Asansol Water Supply Scheme. The loan is repayable in twenty-five annual instalments of Rs. 9,837-12 payable on the 1st December every year. Five instalments have already been paid on due dates. This loan charge is met from Water-works Fund and no other loans are outstanding.

In the case of cholera and small-pox, the provision of Rules 20 and 23 relating to immunised persons apply equally to action under this rule.

28. Wherever in these rules surveillance is ordered such surveillance may be replaced by observation:—

- (c) if the person who would be subject to surveillance cannot furnish adequate sanitary guarantee.

Persons under observation or surveillance shall submit themselves to any examination which the Health Officer may consider necessary.

29. Persons who, on arrival at an aerodrome, are considered liable to surveillance up to the expiration of the period of incubation of any of the diseases mentioned in Rule 2(5) except yellow fever, may nevertheless continue the voyage on condition that the fact is notified to the authorities of subsequent landing places and of the place of arrival either by means of an entry in the journey-log-book or by some other method sufficient to secure that they can be subjected to medical inspection in any subsequent aerodrome on the route.

Any person who is liable to observation save a person who is liable thereto by reason of being suspected of or having been exposed to the risk of infection by yellow fever, may at the discretion of the Health Officer be authorised to continue the voyage before the expiration of the period of incubation specified in Rule 2 (8) provided that the approval of the sanitary authorities at the place of his destination is first obtained.

another country shall not be subjected to these measures a second time, provided no subsequent incident has occurred which calls for the application of the sanitary measures in question, and that the aircraft has not called at an infected aerodrome except to take in fuel.

32. The aerodrome authority applying sanitary measures shall, whenever requested, furnish free of charge to the Commander of the aircraft, or any other interested person, a certificate specifying the nature of the measures, the methods employed, the parts of the aircraft treated, and the reason why the measures have been applied.

Subject to the provisions of Rules 24, 25 and 26 of these rules and particularly those of Rule 25 (a) any aircraft which does not wish to submit to the measures prescribed by the aerodrome authority in virtue of the provisions of these rules shall be at liberty to continue its voyage. It shall not, however, land in another aerodrome in India except for the purpose of taking in supplies.

(b) An aircraft shall be permitted to land goods on condition that it is isolated and that the goods are subjected to such measures as may be prescribed by the Health Officer in accordance with these rules.

(c) Aircraft shall also be permitted to disembark passengers at their request, on condition that such passengers submit to such measures as may be prescribed by the Health Officer in accordance with these rules.

(d) Aircraft may also take in fuel, replacements, food and water while remaining in isolation.

35. Whosoever does any act in contravention of any of the provisions of these rules shall be punishable with imprisonment for a term not exceeding three months or with fine which may extend to one thousand rupees or with both.

NOTIFICATION.

No. 9474A.—21st August 1936.—In pursuance of Rule IX of the Bengal Provincial Services Recruitment Rules* published in notification No. 7183A., dated the 22nd May 1930, the Government of Bengal are pleased to notify the following particulars and instructions regarding the direct appointments to be made in 1937 to the Bengal Civil Service (Executive) and the Bengal Junior Civil Service :—

1. **Vacancies.**—The following vacancies will be filled by direct appointments :—

Bengal Civil Service (Executive)	7
Bengal Junior Civil Service	10

In addition to these appointments 2 appointments in the Upper Division of the Bengal Secretariat clerical service will be available to candidates who qualify for appointment to the abovenamed service but whose places in the list are not sufficiently high to enable them to secure appointments to the Bengal Civil Service (Executive) and the Bengal Junior Civil Service.

Government reserve the right to fill up from this examination any additional vacancies which occur up to the date of the examination or within such period thereafter as Government may think fit to prescribe.

Each candidate will be required to specify in his application the service or services for which he desires to compete, placing them in the order of his preference, and *the choice thus indicated will be final*. Appointments will be assigned to successful competitors with due consideration of their choice and the number of vacancies in the services.

2. **Method of recruitment.**—The appointments will be made by competitive examination in the manner prescribed in Part B of Schedule II of the Bengal Provincial Services Recruitment Rules.

3. **Qualifications.**—The indispensable qualifications of a candidate are—

- (i) that he is a native of Bengal or has a permanent domicile within the Presidency of Bengal ;
- (ii) that he is a natural born subject of His Majesty, or of an Indian State in respect of whom the Governor-General in Council has made a declaration under section 96A of the Government of India Act ;
- (iii) that he shall have attained the age of 22 and shall not have attained the age of 25 on the 1st October 1936 ;
- (iv) that he is a graduate of a recognised University ;
- (v) that he is of good character ; and
- (vi) that he is of sound health, good physique, active habits and free from organic defect or bodily infirmity.

Along with his application every candidate shall submit proof of his age as explained in the form of application and certificates, written not more than one year prior to the date of his application, from two responsible persons unconnected with his College or University, and not related to him, testifying to his private character and stating that he is a native of or has a permanent domicile within the Province of Bengal.

Copies attested by the nominating authorities or by responsible persons of the certificates may be submitted.

4. **Applications—Method of submission of fee, etc.**—(i) A person desiring to be admitted to the examination shall apply before the 30th November 1936 to the head of the college from which he passed his examination for the degree of Bachelor of Arts, Science, Commerce, etc. A candidate who passed the examination as a non-collegiate student shall send in his application to the Registrar, Calcutta University, together with a certificate of character signed by the Principal of his college if he was connected with one, and by the Magistrate of the district in which he is resident in other cases ; candidates from the Dacca University shall apply to the Registrar, Dacca University. All other candidates (not included in the previously mentioned categories) shall apply to the Director of Public Instruction, Bengal :

Provided that in no case shall a candidate apply to more than one of these authorities, and that such application shall always be made through their Durbars by persons resident in a State in India.

(ii) Applications shall be made, in the form shown in Schedule I, copies of which may be obtained from the heads of colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction.

(iii) No application will be taken into consideration by the receiving authority unless it is accompanied by non-judicial stamps of the value of Rs. 5 or a chalan showing payment into a Government treasury in Bengal of the sum of Rs. 5. This payment is obligatory whether such application is subsequently rejected or not. Applications stamped with postage stamps will not be accepted.

5. **Selection Committee.**—The Government of Bengal will appoint a Selection Committee to examine the applications of nominated candidates and their eligibility for admission to the examinations. This Committee will be composed of officials and non-officials in equal numbers and will be presided over by a high officer of Government.

6. **Nomination.**—The heads of colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction, Bengal, shall forward to the Selection Committee before the 14th December

*Copies of these Rules (price annas six) are obtainable from the Officer in charge, Book Depot, Bengal Secretariat, Calcutta.

1936, the applications of candidates nominated in accordance with the allotment of nominations shown in Schedule II and shall certify the moral character of each candidate so nominated. The application of non-collegiate students nominated by the Registrar of the Calcutta University should be supported by the character certificates mentioned in paragraph 3 above. In making these nominations, due regard should be paid to the desirability of different classes and communities being represented in the public service. Care should be taken to nominate only such candidates as are likely to pass the medical examination since experience shows that a considerable number of candidates successful in the literary examination fail to pass the medical test.

7. **Selection certificates.**—In order to make the appraisalment of individual merits of candidates possible, the Selection Committee shall issue certificates of selection to such of the nominated candidates, not exceeding 200 in all, as it considers, qualified to appear at the examination. The selection or rejection of a candidate by the Selection Committee shall be final, and no candidate shall be admitted to the examination unless he holds such a certificate :

Provided that in making their choice the Selection Committee shall give all possible consideration to the cases of candidates of the minority communities and the backward classes and shall call for further nominations from the heads of colleges or Commissioners of Divisions if the number of selected Muhammadan candidates does not reach 45 per cent. of the total number selected. The additional nominations received from the nominating authorities in respect of Muhammadan candidates are not considered if the regular nominations reach the prescribed quota.

8. **Particulars of candidates.**—The Selection Committee may require such further proof or particulars from the candidates as it may consider necessary, and may make enquiries regarding their character and domicile.

9. **Examination fee and time-table.**—Every candidate to whom a certificate of selection has been issued will, within a week from the date of its receipt, deposit in the nearest treasury in Bengal a sum of Rs. 50 as examination fee and forward the receipt for the same to the Secretary to the Selection Committee. No part of the fee will be returnable to a candidate. Delay in this respect may render a candidate's name liable to removal from the list of examinees. On complying with this requirement, the candidates will receive from the Secretary a time-table for the examination. The examination will commence on the 25th February 1937, and will be held at the Presidency College, Calcutta.

10. **Canvassing.**—Any attempt on the part of a candidate to enlist support for his application through persons of influence or officials of Government will disqualify him for appointment. Spontaneous recommendations from persons interested in the candidates, or otherwise known to them, will be disregarded.

11. **Ineligibility of Government servants.**—Unless specially exempted by Government in the Appointment Department by general or special order, no person holding a substantive appointment in Government service or an appointment on probation against a substantive vacancy under Government is eligible to appear at the competitive examination. Whenever such exemption is granted, the candidate will be subject to selection by the Selection Committee, as if he were duly nominated under paragraph 6 above. Persons holding purely temporary posts under Government should submit their applications in the manner prescribed in paragraph 4 above.

12. **Syllabus of examination and marks.**—The examinations will be held in the subjects and according to the syllabus shown in Schedule III which also indicates the numerical value to be attached to each paper at the examination.

As the possession of a knowledge of a provincial vernacular is an essential condition of appointment, candidates, whose ordinary spoken and written language is not Bengali, must take up translation from English into one of the provincial vernaculars named below :—

- | | |
|--------------|--------------|
| (i) Bengali, | (iii) Urdu, |
| (ii) Hindi, | (iv) Nepali, |

and *vice versa* in the compulsory paper. Successful candidates, however, who have offered any language other than Bengali in that paper and are appointed to a service for which there is a Departmental Examination, will be required to pass completely the Departmental Examinations in Bengali within two years of the date of their appointment to the service.

13. **Medical Examination.**—As soon as the results of the examinations have been declared, a proportion of the candidates who have qualified will be called upon to appear before a Medical Board for a certificate of their fitness for Government service in form A of Schedule IV of the Bengal Provincial Services Recruitment Rules. An order to appear before the Medical Board must not however be understood to mean that the candidate, if found fit, will necessarily receive an appointment as the number of candidates who will be summoned for medical examination will be slightly in excess of the total number of vacancies, and the question of his appointment will depend upon the results of the medical examination taken as a whole. The regulations governing the physical examination of candidates are set forth in Schedule IV of the Bengal Provincial Services Recruitment Rules and intending candidates are advised before they apply for admission to the examination to satisfy themselves that they are likely to qualify as physically fit under those regulations, for recent experience has shown that a considerable number of the candidates at the competitive examinations are subsequently rejected by the Medical Board as unfit.

G. P. Hogg,

Chief Secy. to the Govt. of Bengal.

Note.—The attention of the candidates is invited to the introduction of a *viva-voce* test (*vide* page 8, Schedule III).

(iii) In awarding marks in all the subjects the candidate's knowledge of English, as shown by the answers, will be taken into account.

(iv) Ten per cent. of the marks obtained in any paper will be subject to deduction for bad writing and untidiness.

(v) The following details may prove helpful to a candidate as indicating the standard and nature of the examination :—

I.—COMPULSORY SUBJECTS.

1.—Translation and Retranslation.

The examination will be directed to test not the extent of the candidate's knowledge of any literature (English, Bengali, Hindi, Urdu, Nepali, French or German), but only facility in rendering from one language into another with reasonable accuracy and elegance. In the case of candidates whose ordinary written and spoken language is not Bengali and who did not take up Bengali as their vernacular at the University examinations the tests in this paper will be equivalent to the tests in the subject prescribed in the rules for the lower standard of the Departmental Examination in Bengali for Civil officers, and such candidates will after appointment and before confirmation be required to pass the Departmental Examination by the higher standard in Bengali.

2.—English Composition.

Questions will be set to test the candidate's power of writing clear and expressive English. They will include letter-writing on given subjects, the rapid summarisation of the subject matter of passages in prose of about 500-600 words in length and the detailed paraphrase of poetry.

The general standard of the subject matter will be that of the pass B.A. degree of an Indian University.

3.—Elementary Mathematics.

Vulgar and Decimal Fractions. Ratio and Proportion. Areas and Volumes of Simple Figures and Solids. Percentages. Simple Interest. Easy Factors. Simple Equations. Graphs of Simple Equations and of Sets of Data. Elementary Geometry of the Straight Line, Triangle and Circle.

The paper will consist largely of Problems with Arithmetical Data.

CUSTOM HOUSE, CALCUTTA.

Custom House, Calcutta, the 20th August 1936.

Custom House Agents.

The following rules are prescribed for the grant of Clearing Agents' licenses under section 202 of the Sea Customs Act. These rules and any amendments thereto made from time to time shall apply to all Clearing Agents irrespective of the dates on which their licenses are issued unless the Collector of Customs specially exempts any of the Clearing Agents holding a permanent or provisional license on the date of issue of these rules from the operation of any of the rules:—

1. The number of licenses granted to Clearing Agents will ordinarily be limited to 150 but the Collector of Customs reserves to himself the right of increasing or reducing the number at any time. Vacancies will be filled up as they occur, or once in six months, according to the convenience of the Department, the selected candidate being approved by the Collector.

2. Ordinarily licenses will be granted only to firms or individuals of established position. When a firm or individual applies for a license the following conditions must be satisfied before the applicant's claim can be considered:—

- (1) There must be a vacancy on the list.
- (2) The applicant must be one whose respectability and reliability is fully vouched for by persons well-known to the Department and must produce at least two certificates of character.
- (3) The financial position of the applicant must be thoroughly satisfactory.
- (4) The applicant must produce letters from at least six firms of standing expressing their readiness to employ the applicant as a Clearing Agent in Calcutta.
- (5) The applicant must agree either to work personally or through a licensed sircar or to employ a person as clerk to be approved by the Department.
- (6) The applicant must possess a fair knowledge of English, Bengali and/or Hindustani and also of the Custom House rules and procedure.

3. As a guarantee of his faithful behaviour as regards the Custom House regulations and officers, a Clearing Agent will be required to

deposit Rs. 500 in the Post Office Savings Bank and to pledge the Pass Book to the Collector of Customs and to execute a bond for the amount of deposit in the prescribed form (form I). In addition, every Clearing Agent will be required to furnish another bond (form II), with suitable surety for Rs. 500, or alternatively to make a cash deposit of Rs. 1,000 instead of Rs. 500.

4. A Clearing Agent who has executed a bond in form II must furnish the Collector of Customs every twelve months with a letter signed by the surety stating his willingness to continue to act as security. This will not dispense with the appearance of the surety in person every three years.

5. The Clearing Agent must sign an agreement to bring to the notice of the Collector of Customs the death or insolvency of the surety or his inability satisfactorily to continue his obligations.

6. One Clearing Agent will be allowed to stand security for another provided he can satisfy the Collector of Customs that he has sufficient property to cover his liability and one person will be allowed to stand security for more than one Clearing Agent provided he has sufficient property to enable him to stand security for those Clearing Agents.

7. A Clearing Agent may employ clerks according to the volume of his business subject to the following conditions:—

- (1) that the extent of the Clearing Agents' business necessitates the employment of a clerk or clerks,
- (2) that the person nominated is of satisfactory character and sufficient education and possesses sufficient knowledge of Customs procedure,
- (3) that the Clearing Agent acknowledges responsibility for his clerk's actions.

Such clerks will be licensed under section 203 of the Sea Customs Act.

8. Clearing Agents will be held responsible for seeing that all documents prepared or presented by them are strictly in accordance with the orders relating thereto.

9. Clearing Agents will be required to maintain accounts and submit them for inspection in such form and manner as may be directed from time to time. Misconduct or failure to maintain accounts or to submit them for inspection whenever required will render the license of a Clearing Agent liable to suspension or cancellation.

10. A Clearing Agent's license is also liable to cancellation if the Collector of Customs is satisfied at any time that the volume of work done by him is negligible. A Clearing Agent's license is not transferable by sale or otherwise. Any transfer or attempt at transfer will render the license immediately invalid.

11. The grant of licenses under these rules does not confer a right to accommodation in the Custom House.

G. N. BOWER,
Collector of Customs.

Any objection or suggestions which may be received in respect of the draft before the date specified will be considered by the Governor-General in Council.

DRAFT RULES.

1. (a) *Title and application.*—These rules may be called the Hazardous Occupations (Lead) Rules, 1936.

(b) They shall apply to all factories in which any operation specified in the Schedule is carried on.

2. *Declaration of occupations as Hazardous.*—The operations specified in the Schedule are declared to be hazardous operations when carried on in any factory.

3. (1) *Definition of "lead compound".*—In these rules "lead compound" means any compound of lead, other than galena, or any mixture which contains a compound of lead, other than galena (but does not include an alloy containing lead);

Provided that the compound or mixture when subjected to the treatment prescribed in sub-rule (3) yields to an aqueous solution of hydro-chloric acid a quantity of soluble lead compound exceeding, when calculated as lead monoxide, five per cent. of the dry weight of the portion taken for analysis.

(2) In the case of paints and similar products and other mixtures containing oil or fat the "dry weight" means the dry weight of the material remaining after the substance has been thoroughly mixed and treated with suitable solvents to remove oil, fats, varnish or other media, and the treatment referred to in sub-rule (1) shall be applied to the material so remaining.

(3) The treatment referred to in sub-rule (1) shall be as follows:—

A weighed quantity of the material which has been dried at 100°C and thoroughly mixed shall be continuously shaken for one hour, at the common temperature, with 1,000 times its weight of an aqueous solution of hydro-chloric acid containing 0.25 per cent. by weight of hydrogen chloride. This solution shall thereafter be allowed to stand for one hour and then filtered. The lead salt contained in the clear filtrate shall then be precipitated as lead sulphide and weighed as lead sulphate.

4. *Sampling.*—When an Inspector suspects that any substance used or intended for use in any factory contains a lead compound he may at any time take for analysis sufficient samples of that substance:

Provided that the manager of the factory may, at the time when a sample is taken and on providing the necessary appliances, require the Inspector to divide the sample into two parts and to make and seal and deliver to him one such part.

5. *Prohibition of employment of women, adolescents and children.*—No woman, adolescent or child shall be employed in any factory in any of the operations specified in items (i) to (viii) inclusive of the Schedule.

6. *Medical certification and examination.*—(1) No person shall be employed in any factory in any of the operations specified in the Schedule unless:—

(a) a special certificate of fitness in the Form appended to these rules granted to him by a certifying surgeon appointed under section 12 of the Factories Act, 1934, is in the custody of the manager of the factory; and

(b) he carries with him while at work a token giving reference to such certificate.

(2) Every person employed shall be medically examined by a certifying surgeon at intervals of not more than six months, and a record of such examinations shall be entered in the Form appended to these rules.

(3) If at any time the certifying surgeon is of opinion that any person is no longer fit for employment in any of the operations specified in the Schedule, he shall cancel the special certificate of fitness of that person.

(4) No person whose special certificate of fitness has been cancelled shall be employed in any of the operations specified in the Schedule unless the certifying surgeon again certifies him to be fit.

7. *Exhaust draughts*.—Where gas, dust or fume is produced in any of the operations specified in the Schedule, provision shall be made for drawing the gas, dust or fume away from every such person by means of an efficient exhaust draught so contrived as to operate on the gas, dust or fume as closely as possible to the point of origin:

Provided that where the provision of an efficient exhaust draught is not reasonably practicable respirators of a type approved by the Inspector shall be provided by the occupier and worn by every person working under such conditions.

Explanation.—"Efficient exhaust draught" means localised ventilation effected by heat or mechanical means, for the removal of gas, vapour, dust or fumes so as to prevent them (as far as practicable under the atmospheric conditions usually prevailing) from escaping into the air of any place in which work is carried on. No draught shall be deemed efficient which fails to remove smoke generated at the point where such gas, vapour, fumes or dust originate.

8. *Floors and work-benches*.—(1) The floor of every room, in which any person is employed on any of the operations specified in the Schedule, shall be of smooth cement or other smooth impervious material.

(2) The top of every work-bench in every such room shall be of smooth impervious material.

9. *Washing facilities*.—The occupier shall provide and maintain in a cleanly state and in good repair for the use of persons employed on any of the operations specified in the Schedule either—

(i) a trough with a smooth impervious surface fitted with a waste pipe without plug, and of sufficient length to allow at least two feet for every five such persons employed at any one time, and having a constant supply of warm water from taps or jets above the trough at intervals of not more than two feet; or

(ii) at least one lavatory basin for every five such persons employed at any one time, fitted with a waste pipe and plug, having either a constant supply of hot and cold water or warm water laid on, or (if a constant supply of heated water be not reasonably practicable) a constant supply of cold water laid on, and a supply of hot water always at hand when required for use by such persons;

together with, in either case, a sufficient supply of nail brushes, soap or other suitable cleansing material, and clean towels.

10. *Food, drink and tobacco*.—No food, drink or tobacco shall be brought into, or

consumed in, any room in which any person is employed upon any of the operations specified in the Schedule.

11. *Protective clothing*.—Adequate protective clothing such as overalls in a clean condition shall be provided by the occupier and worn by every person employed on any of the operations specified in the Schedule.

Provided that the Chief Inspector of Factories may grant exemption from the operation of this rule to such extent as he deems suitable, where he is satisfied that its observation is not necessary for safeguarding the health of the operatives concerned.

12. *Tools and apparatus*.—All tools and apparatus used in any operation specified in the Schedule shall be kept clean.

13. *Exemption of casual operations*.—If it appears to the Chief Inspector of Factories that owing to the casual nature of any operations specified in head (ix) of the Schedule, the application of any provisions of these rules is not necessary for safeguarding the health of persons employed on these operations, he may grant exemption from such provisions to such extent and on such conditions as he may deem fit.

Condition.

1. The Officer holding the auction is not bound to accept the highest or any offer for any lot. The sale of any lot, the value of which exceeds Rs. 5,000, shall not be complete until confirmed by the Conservator of Forests, Bengal.

2. If the Officer holding the auction accepts an offer for any lot, the purchaser who has made the accepted offer shall immediately deposit as earnest money Rs. 100 in currency notes if the bid is below Rs. 1,000, Rs. 200 for a bid between Rs. 1,000 and Rs. 2,000, and Rs. 300 for a bid over Rs. 2,000. This earnest money will be returned if the sale is not confirmed, and will be transferred to the security deposit if the sale is confirmed; but if the amount of the earnest money be more than the required security deposit, the excess amount of the earnest money will be credited as part revenue for the lot.

3. Purchasers will be required to deposit security as follows:—

- (1) For Clear Felling Lots, 10 per cent. of the purchase money.
- (2) For Selection Coupes, 15 per cent. of the purchase money.

Payment of the security deposit according to the foregoing scale must be completed within fifteen days after the date of confirmation of the sale. The amount of security will be calculated to the nearest rupee.

4. Purchasers will be required to sign agreements in the printed form for outright sales (a copy of which may be seen at the Divisional Forest Offices at Darjeeling, Kurseong, Kalimpong, Buxa, Jalpaiguri and Rajabhatkhawa Subdivisional Forest Office).

- (c) In clause 6 of the agreement, a period of two months from date of confirmation of sale will be allowed for claim to shortage in number of trees and timber.
- (d) Purchasers of green lots must bark all trees within one week of felling, unless previously removed.

6. Failure to complete the payment of security deposit by the prescribed date will render the purchaser liable to forfeiture of the earnest money and failure to sign the agreement within one month of confirmation of sale will render the purchaser liable to forfeiture of the security deposit.

The lot or lots so affected shall be resold by public auction at the discretion of the Divisional Forest Officer, and the purchaser shall be liable for any loss, short of bid, on such resale.

7. In clear felling lots purchasers will be permitted to take away the tops of the trees they buy for fuel on free cart-load permit, until 15th March 1937, after which royalty rate will have to be paid for any such export. Tops of either over 8 feet in length or more than 3 feet in girth must be hammer marked as timber. Sufficient Sal tops must be left by the purchasers for fencing the plantations. Purchasers of the Rajabhatkhawa Clearing Felling areas will not be allowed to take away the Sal tops for fuel, this coupe only includes the timber in the trees sold and not pieces of under 8 feet in length and 3 feet in girth.

**First Forecast of the Sugarcane Crop of
Bengal, 1936-37.**

(*Note.*—On an average of the five years ending 1934-35, the area under sugarcane in Bengal has represented some 7.2 per cent. of the total area under sugarcane in British India.)

Character of the season.—At the beginning of the season the weather was generally favourable for planting in East and North Bengal

while insufficient rainfall interfered with the progress of the operation in some West Bengal districts. Subsequent conditions were generally helpful for growth. The outlook, so far, is reported to be satisfactory, on the whole.

Area planted.—The total area planted with sugarcane for the province is reported to be 353,200 acres this year as against 324,700 and 325,400 acres reported respectively in the corresponding and final forecasts of last year.

**DEPARTMENT OF AGRICULTURE,
BENGAL.**

Dacca, the 5th August 1936.

**First Forecast of the Cotton Crops of Bengal,
1936-37.**

(*Note.*—On an average of the five years ending 1934-35, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore. As the late crop has not yet been sown, this forecast deals only with the early crop.

Character of the season.—The weather was generally fair for sowing and for the initial stages of growth. The present outlook is reported to be favourable on the whole.

Area sown.—The area sown is reported to be 74,222 acres this year as against 72,785 acres in the corresponding forecast of last year.

K. McLEAN,

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 11th August 1936.

Monthly Weather and Crop Report of Bengal for July 1936.

I. *Character of the season.*—During the month under review, the rainfall was in excess of the normal throughout the Presidency, except only in 24-Parganas, Khulna, Midnapore, Jalpaiguri, Faridpur and the Chittagong Hill Tracts, where the fall was below the average. The usual rainfall statement is appended.

II. *Progress of agricultural operations.*—Transplantation of winter paddy seedlings commenced but more rain was needed to facilitate the operation especially in the high land tracts. Harvesting of autumn rice and jute was progressing in North and East Bengal.

III. *State of standing crops.*—The condition of standing crops was reported to be generally fair.

IV. *Prospects and probable outturn.*—The outturn of summer til was estimated at 81 per cent. of the normal. Prospects of autumn rice are generally reported to be fair.

V. *Damage to standing crops.*—No damage to standing crops was reported from any part of the province.

VI. *Condition of agricultural stock.*—The condition of live-stock was, on the whole, fair. Sporadic cases of cattle disease were, however, reported from seventeen districts of the Presidency and from the States of Cooch Behar and Tripura.

VII. *Failure of pasturage and fodder.*—Insufficiency of fodder was reported from parts of Birbhum.

VIII. *Prices of food grains.*—During the second fortnight of the month the retail prices of common rice of the cheapest quality rose in six districts, fell in four and remained stationary in the rest of the Presidency. The prices ranged from 9½ seers per rupee in Burdwan to 13½ seers per rupee in Khulna.

IX. *Condition of agricultural population.*—The condition of agricultural population was, on the whole, fair, except in parts of 24-Parganas, Nadia, Murshidabad, Khulna, Burdwan, Birbhum, Bankura and Hooghly, where distress continues.
